

A Professional's Favorite: Intrinsics Cellulose Sponges

Whether you're looking to cleanse or remove product, you'll need a tool that will stand up to the challenge. **Intrinsics Cellulose Sponges** are multi-functional, but are especially suited for *cleansing the face* and *removing makeup/product during facials*. Our cellulose sponges come in both **compressed** and **non-compressed** options, as well as different colors. The compressed sponges make the most out of any storage space because of their small, condensed size, which quickly plumps up to full-size when wet.

*Did we mention they make great **gifts** too?*

Benefits

- Soft and absorbent
- Quickly plumps to full size
- Makes the most out of any storage space
- Made in the USA
- Will not break
- Reusable on the same client

Circles + Hearts

Our Circular Cellulose Sponge, both **compressed** and **non-compressed**, come in two colors: natural and white.

Our Heart-Shaped Compressed Cellulose Sponge has three edges for those hard to reach and sensitive places. They're great for around the eyes and nose area because of their unique shape. And they're pink; it can't get much better than that.

Request a Sample

At Intrinsic, we know that using is believing. That's why we included a Pink Heart Shaped sponge is included in our free sample pack. Get yours [here!](#)
